In a not so perfect world:

HELP!

A: Your new Icelandic horse has been registered with the USIHC registry (the horse has a US registration number e.g. US2005156333) but the seller never signed the back of the horse's US registration certificate. It can therefore not be transferred into your name. In this case you need the enclosed *Ownership Transfer*.

Fee: \$15* (\$45 non USIHC member)

OWNERSHIP TRANSFER -

TO BE FILLED OUT BY BUYER AND RETURNED TO SELLER

This form serves as a transfer of ownership **ONLY** if the signature of the buyer **IS NOT** on the original Certificate of Registration. In that case this form needs to be signed and returned to the seller (last recorded owner!). The seller must send in the original Certificate of Registration, signed by the seller, together with the ownership transfer to complete the transfer. The new Certificate of Registration will be sent to the first named new owner.

B: Your new Icelandic horse **HAS NOT** been registered with the USIHC registry (the horse does not have a US registration number e.g. US2005156333). Depending if the horse was born in Iceland, US, or the rest of the world the following forms need to be filled out to register the horse in your name. These forms can be found on the USIHC website:

www.icelandics.org/regforms

Fee:

\$25* (\$50 non USIHC) under 12 months old
\$50* (\$75 non USIHC) over 12 months old

REGISTRATION APPLICATION -

DOMESTIC BRED HORSE ONLY

This form is only needed if the Icelandic horse you are buying was born in the US and **HAS NOT** been registered yet. In this case signatures from the sire's and dam's owner are also required, as well as DNA parent verification. A stallion report for the year of breeding needs to be on file with the registry for the sire.

REGISTRATION APPLICATION -

IMPORTED HORSES ONLY

This form is only needed if the Icelandic horse you are buying was born outside of the US and **HAS NOT** been registered with the USIHC registry. DNA verification is required for mares and stallions, not geldings.

C: DNA verification is **ONLY** needed if the horse was never registered or if the horse was born outside of the US. All horses with US registration certificates have been DNA tested and are 100% Icelandic!

- Domestic born horses need **Parentage Verification** (DNA is pulled from your horse's mane or tail and compared to its parents DNA)
- Imported mares and stallions (not geldings) need a **Genetic Marker Report**.

Fee: \$40

DNA PARENTAGE/GENETIC MARKER VERIFICATION-

Create an online account:

www.vgl.ucdavis.edu/services/horse and click on *parentage / genetic marker*. Fill out the online form and either pay directly or include your payment with your hair sample. The form will be emailed to you. Print it out and attach 20-30 mane or tail hairs with roots. Send the form back to UC Davis and they will email and/or mail you the DNA verification.

If you need **ANY** help with registering your new horse please contact the registrar at registry@icelandics.org or Martina Gates (NEIHC president) at martinagates@mac.com or 631.421.2290
